# ABOUT US

- Autonic Engineering Company is an engineering firm registered under the LAWS OF KENYA, CAP 486 of the Companies ACT, Revision 2015
- The Company has rich experience spanning across various Engineering disciplines namely Electrical, Civil and Telecommunications
- The Company employs cost effective measures through detailed designs and lean management processes in delivering simple to complex projects
- The Company achieves this noble mission through a team of highly experienced personnel across all the fields as well as encompassing young vibrant talents with a thirst to make a mark

## OUR MISSION

- To provide smart solutions to today's engineering challenges by offering the most efficient and cost effective solutions.

## OUR VISION

- Together building a better tomorrow

## OUR CORE VALUES

- Quality and Excellence
- Integrity
- Solution driven
- Creating meaningful relationships
- Professionalism

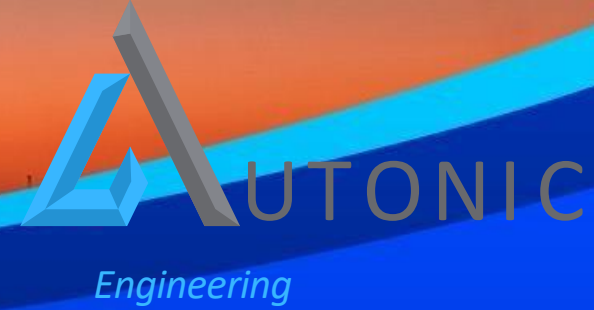

# OUR SPECIALITIES

## Civil Engineering Works

- Design, Procurement of Plant, Construction and Commissioning of civil and building works.
- We offer complete solutions for roads and related works, buildings and perimeter security walls.
- We also offer Civil work services ranging from technical consultancy to workmanship for all kinds of Civil works.

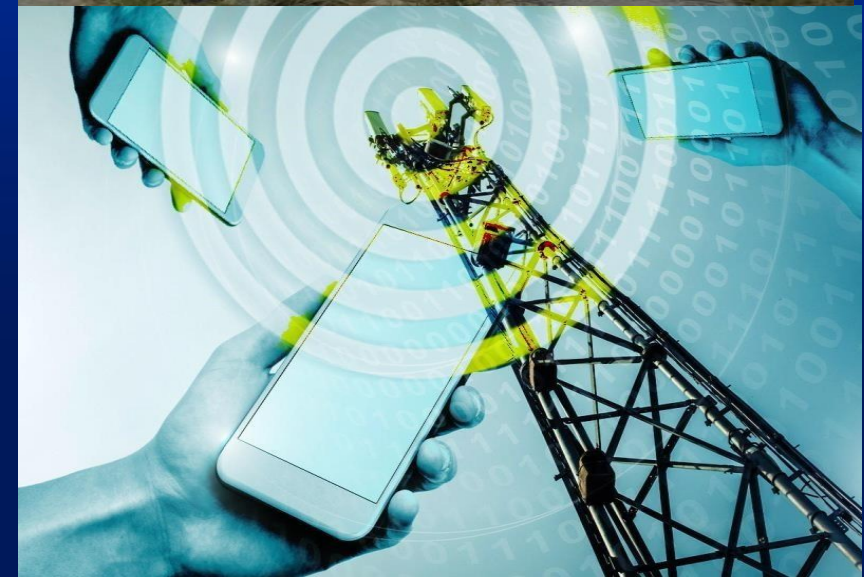

# OUR SPECIALITIES

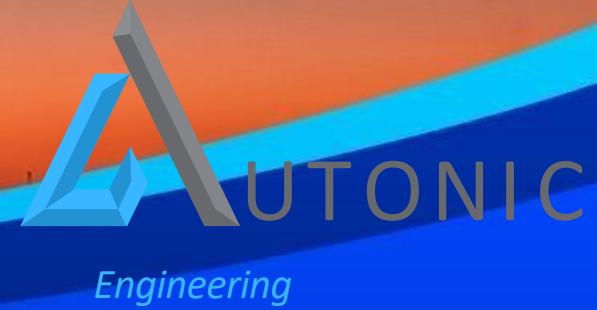

## Wireless Rollout, Maintenance & Operation

- We offer wireless rollout services from construction and installation of telecommunication sites, powering and commissioning of wireless technologies
- We are a solution provider in 5G/4G/3G/2G wireless network technology rollout projects for Small cell towers, Greenfield Sites, monopole sites, Wall mounted & rooftop sites
- A new solution for Hybrid sites is underway to effectively reduce fuel usage in remote sites and encourage use of Solar panels as source of energy

## OUR SPECIALITIES

# Wireless Network Optimization

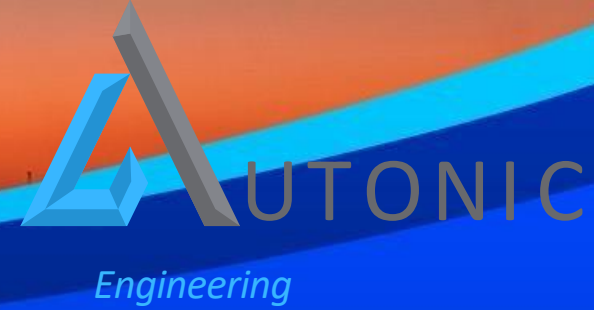

- We offer wireless network optimization for 2G/3G/4G ensuring customers get the best quality and reliable services.
- We undertake drive tests, walk tests and come up with remedies to solve shortcomings your network making it more reliable.
- We are looking forward to the next generation technology, 5G hoping it will improve greatly on customers experience for your Network.

# OUR SPECIALITIES

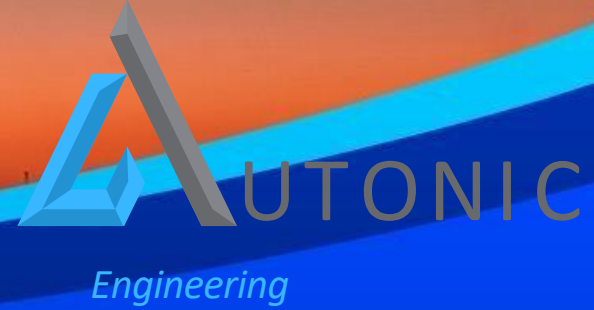

## Renewable Energy Sources

- Survey, Design, Procurement of Plant, Supply, Installation and commissioning of renewable energy solution systems
- We offer complete solutions for renewable energy sources, including installation of smart solar systems; Grid-Tied Solar Systems, Off-Grid Solar Systems and Hybrid Solar Systems.
- We also offer smart solar street lighting solutions.

## OUR SPECIALITIES

# Transmission & Distribution Power lines

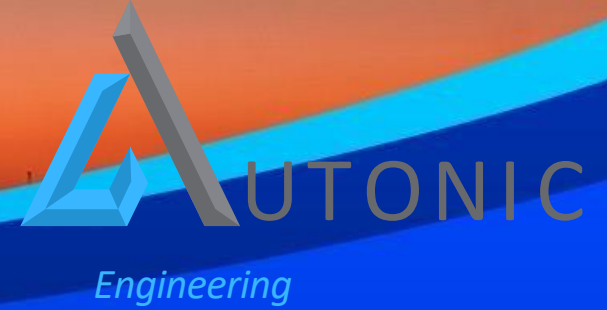

- Survey, Design, Procurement of Plant, Installation and Commissioning of HT, MV and LV Power Lines including installation of Service Cables and customer connection
- We offer complete electrical general services including Residential, Commercial and Industrial Electrical Services, High Mast Flood Lights and Street Lighting Solutions.
- We also offer supply and maintenance services for all the above solutions.

# OUR SPECIALITIES

## Transmission & Distribution Electrical Substations

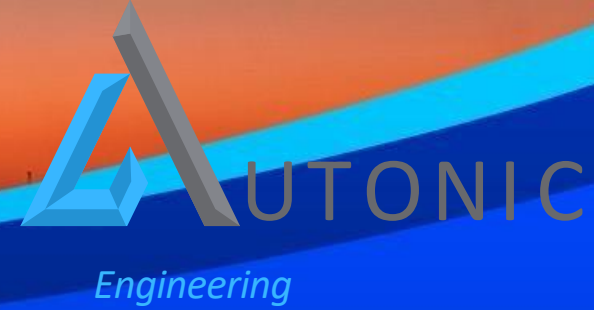

- Design, Procurement of Plant, Installation and Commissioning of Substations.
- We offer complete engineering solutions for both Air Insulated Substations(AIS) and Gas Insulated Substations(GIS), including control systems and communications services.
- We also offer supply and maintenance services for the above services.

## OUR SPECIALITIES

# Fiber Rollout, Maintenance & Operation

- We work on all fiber solutions (FTTH, FTTB & FTTS) from Design, Implementation and commissioning of sites
- These solutions range from small projects to big projects that vary in complexity. We undertake all works from wayleave acquisition to commissioning of the fiber into the network
- After completion of rollout projects, we offer quick and very responsive maintenance up to 95% Plus SLA achievement for all maintenance contracts

# OUR SPECIALITIES

## Supply of Safety equipment's and Trainings

UTONIC

Engineering

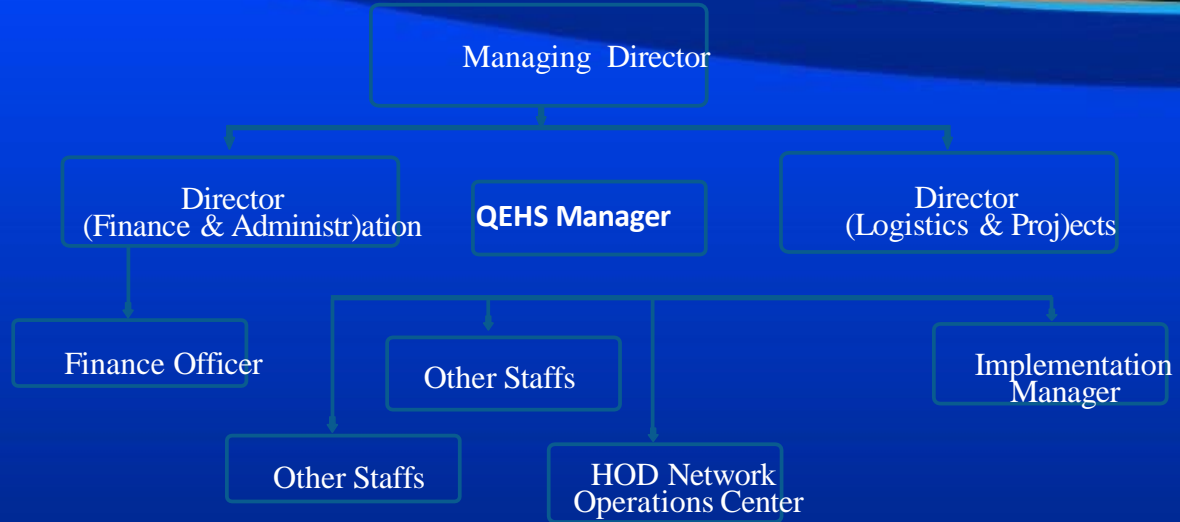

- Our training courses are designed to comply and align to the Kenya OSHA Act (2007), National and International Safety Standards, as well as good Industry Best Practise, whilst still focusing on each client's specific needs.
- Combined with our determination to save lives, reduces cost and saves time, we are driven to innovate, source and Supply trustworthy, superior-quality equipment in partnership with world-leading brands, resulting in our own custom comfortable, high-quality Gear - work at height and construction Products

Autonic Gear specializes in supplying a full range of PPE for all your work at height needs which includes:

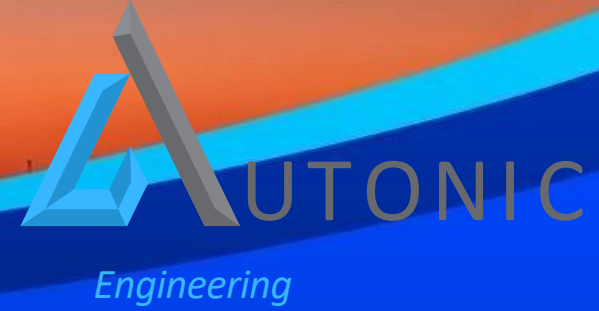

- Fall Arrest
- Rescue
- Rigging (Rope Rigging & Mechanical Lifting)
- Rope Access
