COMPANY
PROFILE

ABOUT US

Autonic Engineering Company is an engineering firm registered under the LAWS OF KENYA, CAP 486 of the Companies ACT, Revision 2015. We are a full-service Work at Height and Rope Access company providing safe, efficient, and cost-effective access solutions through highly skilled rope access professionals. Our operations are carried out by IRATA-certified technicians, L1 and L2, including IRATA Level 3 Supervisors, ensuring all projects are executed to the highest international standards of safety, quality, and technical competence. Our expertise enables clients to minimize access challenges, reduce downtime, and optimize

operational costs while maintaining the highest safety standards. The Company has rich experience spanning across various Engineering disciplines namely Electrical, Renewable Energy, Civil, Telecommunication, Oil and Gas. The essential principles of Autonic Rope Access and its personnel are based on the satisfaction of our clients as all project activities are executed under our responsibilities.
